

## **ACADEMIC SESSION : 2023-24**

### **BEST PRACTICE : 1 Title Amalgamation of Institutions for Nourishment of Students**

MoUs have been successfully established with various Colleges. It has paved the way for the implementation of several faculty exchange programmes. These programmes are designed to enhance academic collaboration, allowing educators to share their expertise, teaching methodologies, and research insights across different institutions. By facilitating the exchange of faculty members, these initiatives aim to enrich the educational experience for both students and teachers, fostering a culture of innovation and cross-cultural understanding within the academic community.

In addition to these educational collaborations, MoUs have been signed with various philanthropic organizations. These alliances have resulted in the execution of numerous welfare initiatives that address focusing social issues and contribute to community development. Through these initiatives, resources are mobilized to improve access to education and other essential activities for underserved populations. The combined efforts of educational institutions and philanthropic organizations not only enhance the quality of education but also promote social responsibility and community engagement, ultimately leading to a more equitable and inclusive society.

### **BEST PRACTICE : 2 Technology Triggers Happiness for Students**

The college website has recently undergone a comprehensive redesigning aimed at enhancing user experience and accessibility for all students. This updated platform now features a more intuitive layout, making it easier and beneficiary for students to navigate and find the information they need.

In addition to the aesthetic improvements, the website has been enriched with valuable resources to support students in their academic pursuits. Notably, a dedicated forum has been created where students can access a wide range of study materials, including lecture notes, reading lists, and supplementary resources tailored to various courses.

Furthermore, to aid in examination preparation and to provide insight into the assessment methods of the University of Kalyani, past university examination question papers have also been made available online. This initiative allows students to familiarize themselves with the format and types of questions they may encounter, thereby, enhancing their study strategies and boosting their confidence as they approach their university exams.

Overall, these enhancements to the college website reflect a commitment to provide support to our students and foster a more engaging and enriched resource learning environment.
